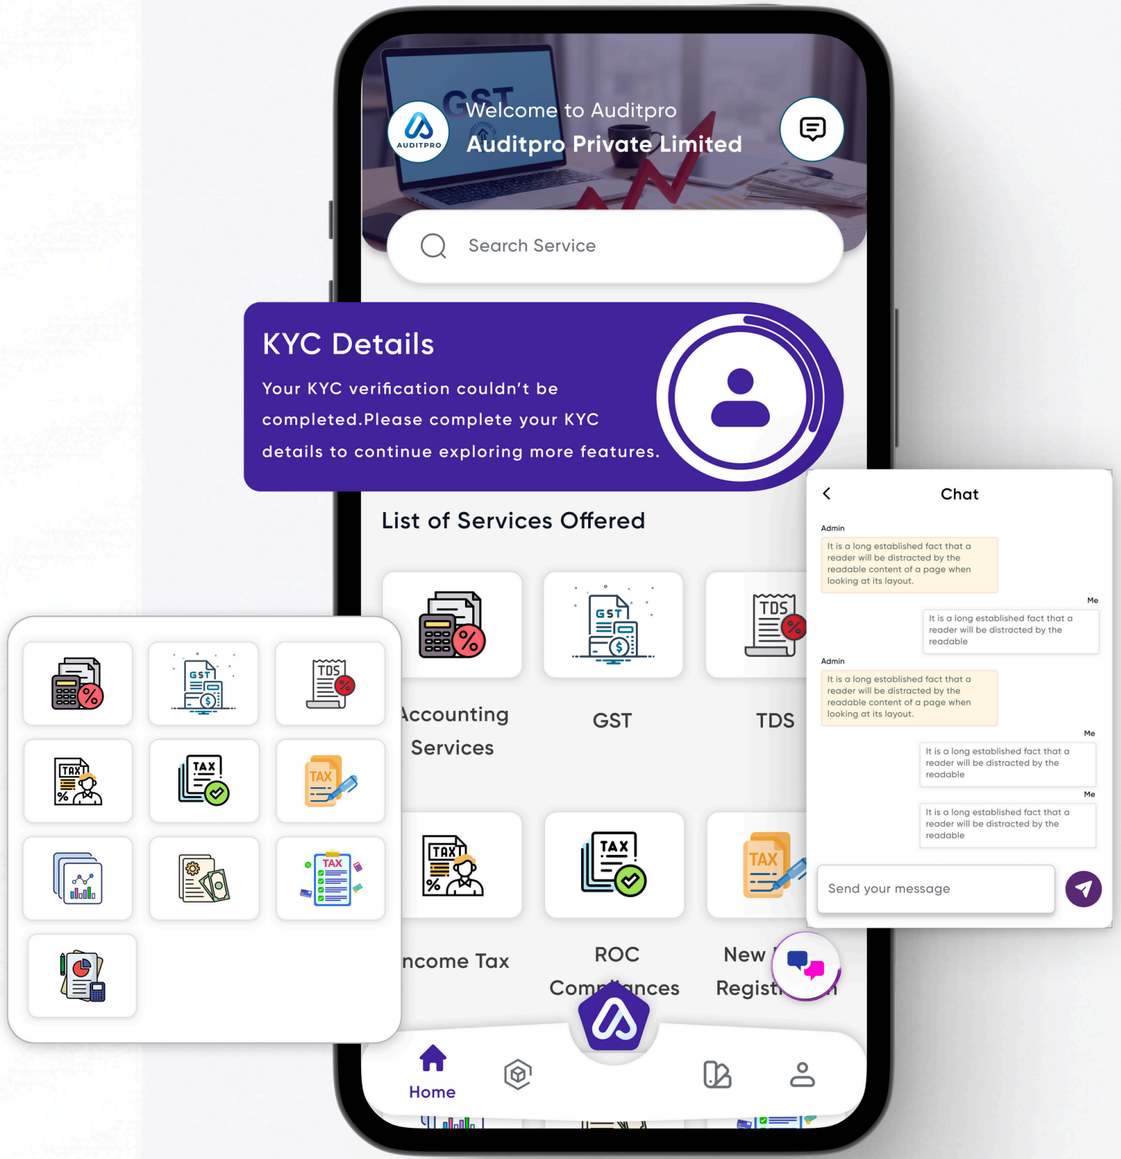
Launch Your Own Branded Audit App

A Digital Blueprint for the Modern Professional Firm

Manage clients, services, communication, billing, and online payments—all under your billing, and online payments—all under your firm's unique brand identity.

Powered by Amrithaa



The Client–Auditor Relationship Platform

AuditPro is a specialized solution built exclusively for Chartered Accountants and audit firms.
It transforms fragmented operations into a cohesive digital experience.

Streamline Operations

Manage client onboarding and service execution in one place.

Enhance Transparency

Direct document exchange and status updates.

Build Trust

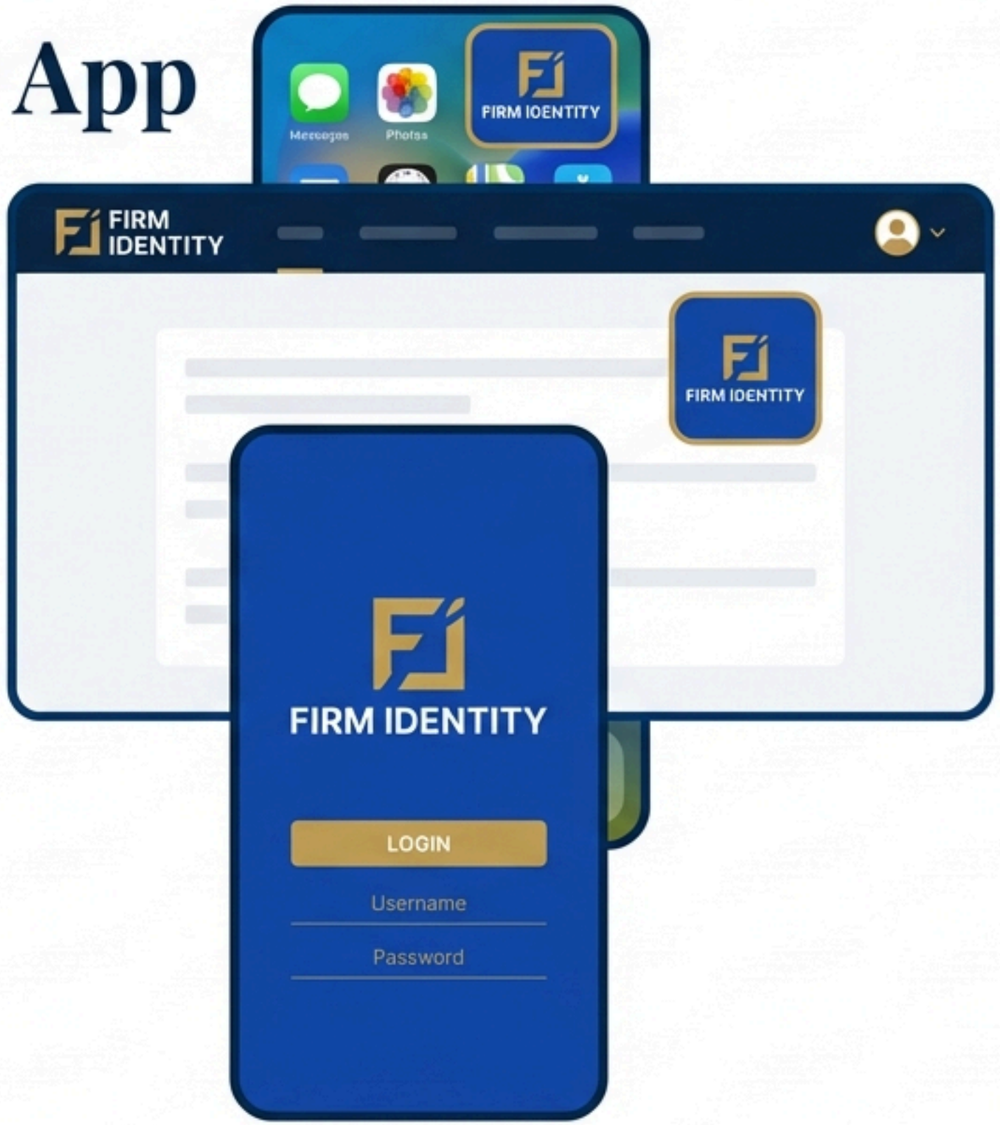
Deliver services through a professional, branded interface.

A complete ecosystem for managing services, communication, billing, and support.

Your Firm, Your Brand, Your App

Move beyond generic tools. AuditPro enables you to launch a fully branded presence on Android, iOS, and the Web.

- **Identity:** Your logo and firm name appear on every screen.
- **Perception:** Elevate your professional image and attract new customers with cutting-edge technology.
- **Retention:** Build stronger long-term relationships by offering clients a dedicated digital portal.



A Unified Digital Ecosystem

Three interfaces working in perfect sync.

Android App: Client Portal

Web App: Auditor Command Center

iOS App: Client Portal

Accessibility for clients on the go, control for auditors at the desk.

The Digital Audit Lifecycle

A streamlined, scalable workflow designed specifically for modern audit requirements.

Configure

Auditor sets up services using the Service Master.

Onboard

Clients are added to the system.

Assign

Specific services and Operators are allocated.

Execute

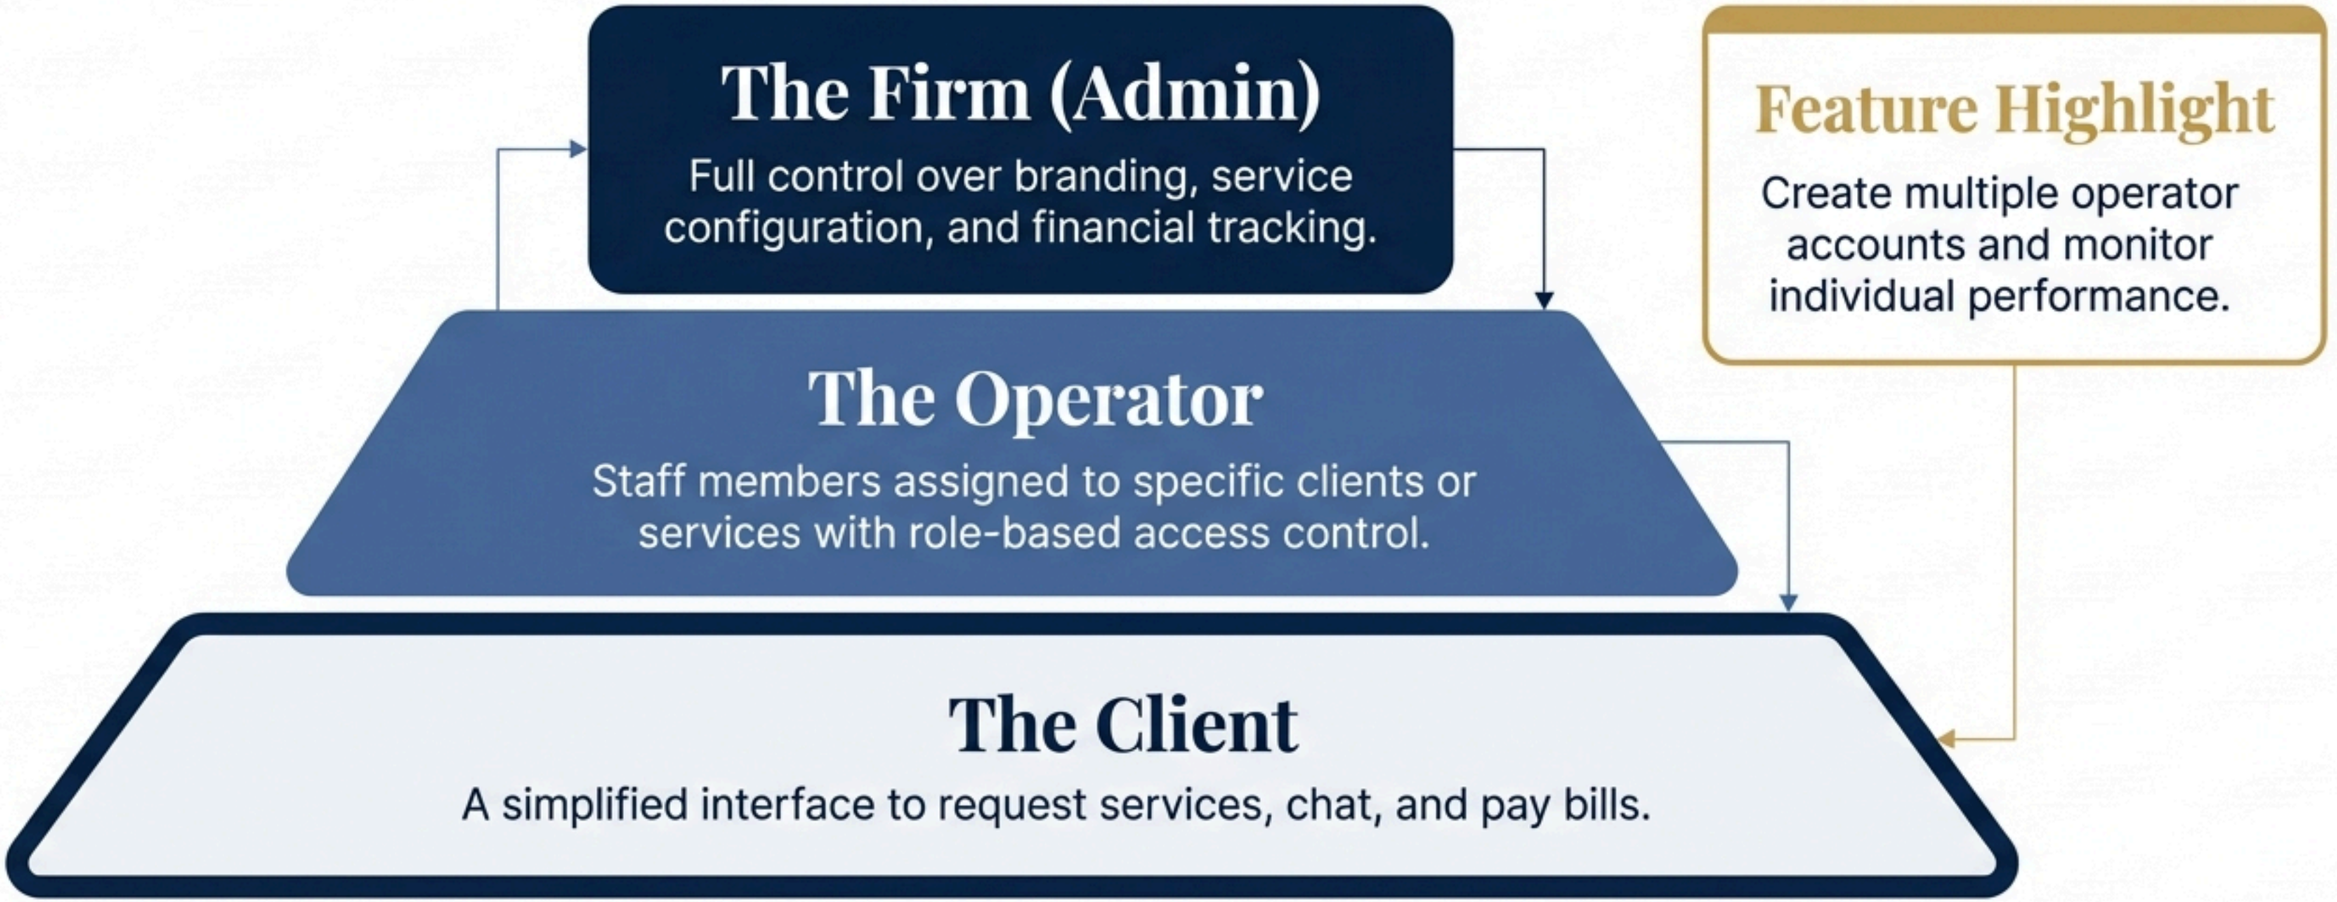
Client raises request; Operators fulfill.

Complete

Invoices generated, payments collected, activity logged.

Role-Based Architecture

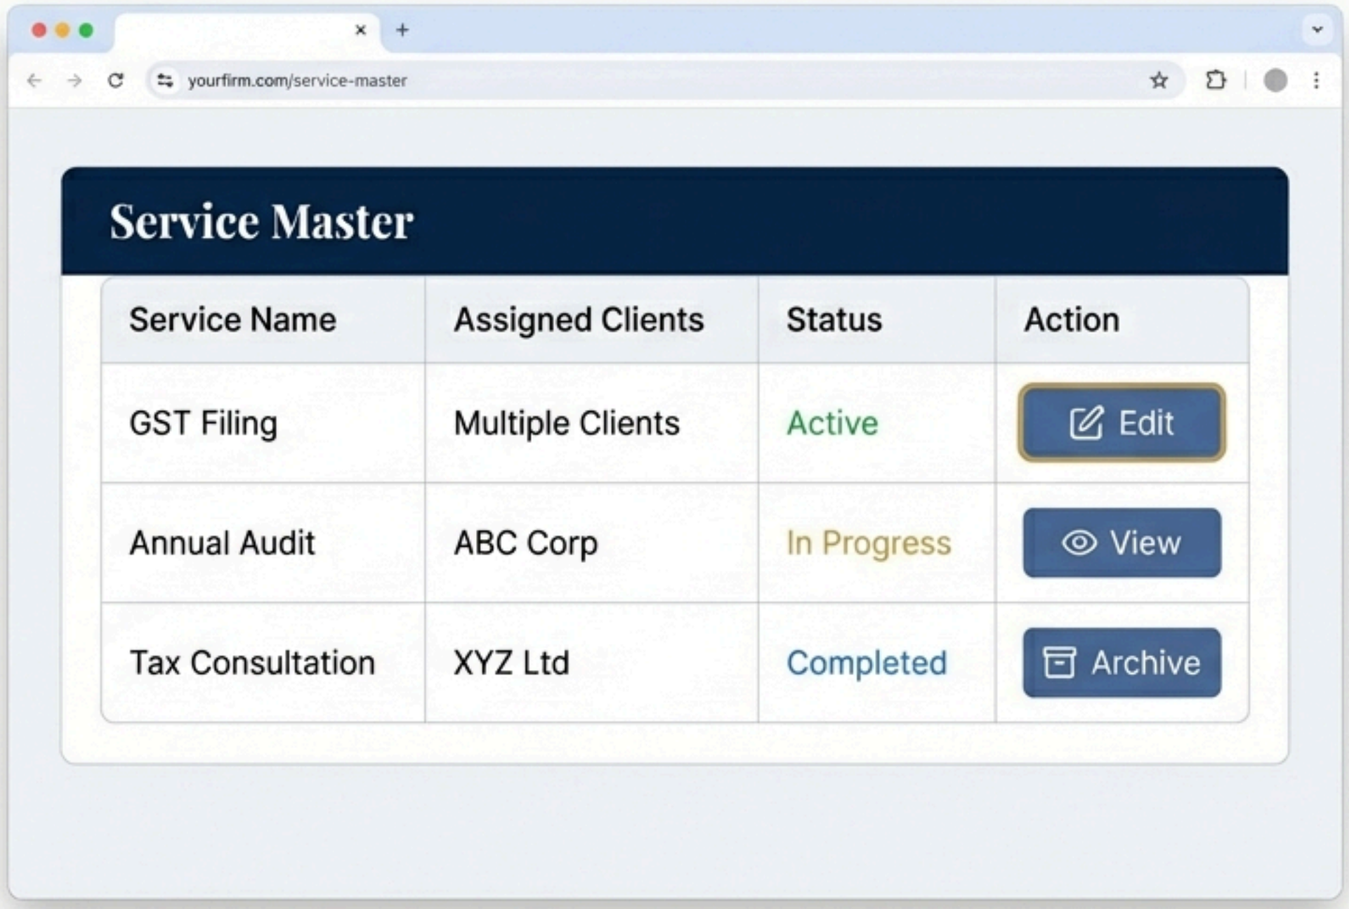
Centralized control over services, clients, and staff



Service & Client Management

Organize your practice with precision.

- **Service Master:** Create and configure the specific audit or financial services your firm offers.
- **Smart Assignment:** Assign specific services to specific clients—no clutter, just relevant options.
- **History Tracking:** Maintain a complete, accessible history of every client interaction.
- **Status Updates:** Track service requests in real-time.



Communication & Engagement

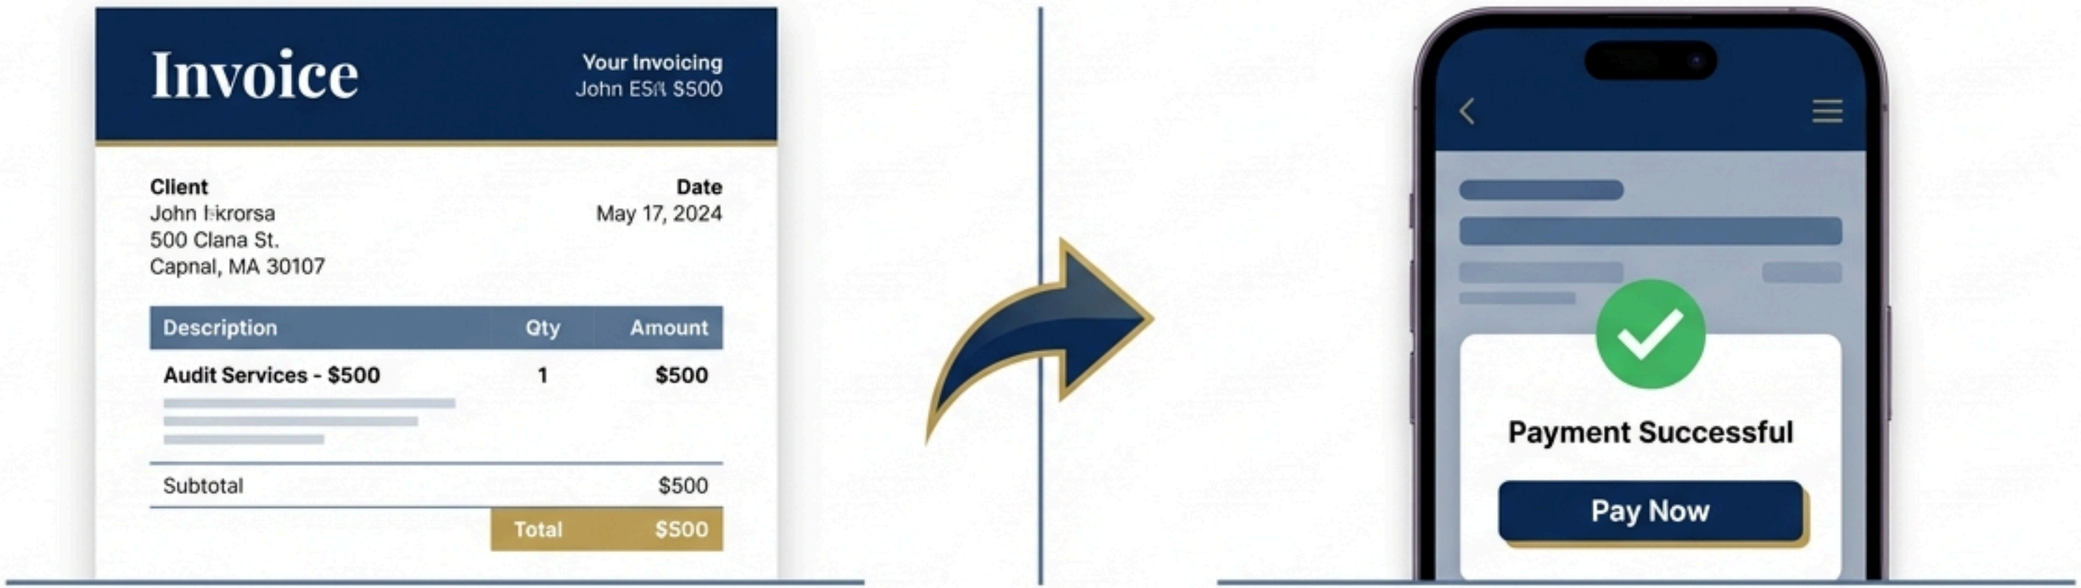
Faster delivery through real-time connection.

- **Secure Chat:** One-to-one secure chat between the client and the firm.
- **Announcements:** Broadcast updates to all clients.

- **Internal Comms:** Dedicated channels for Auditor–Operator coordination.
- **Notifications:** Automated push alerts keep everyone updated.

Financial Command Center

Professional billing and seamless collections.



- **Digital Invoicing:** Generate and send professional invoices immediately upon service request completion.
- **Online Payments:** Accept payments directly from clients through the app.
- **Payment Tracking:** Monitor payment status and view comprehensive billing history per client.
- **Result:** Reduced receivables delay and improved cash flow.

Operator & Team Management

Visibility into your workforce.

- **Access Control**
  Strictly defined role-based access ensures data security.
- **Activity Logs**
  Comprehensive audit-ready tracking logs of all operator actions.
- **Performance Monitoring**
  Track operator activities and service delivery speed.
- **Reporting**
  Generate detailed reports on services, billing, and team activity.

Fully Managed Infrastructure

Focus on your business, not technology.

- Cloud hosting & server infrastructure
- Android & iOS app store deployment
- Web hosting & domain setup
- Regular upgrades and new feature releases
- Technical support and maintenance

No internal IT team required.

Security & Compliance

Built to meet the rigorous standards of the audit profession.

Data Security

Enterprise-grade protection and performance monitoring.

Audit Trails

'Audit-ready' tracking and logs for all system activities.

Transparency

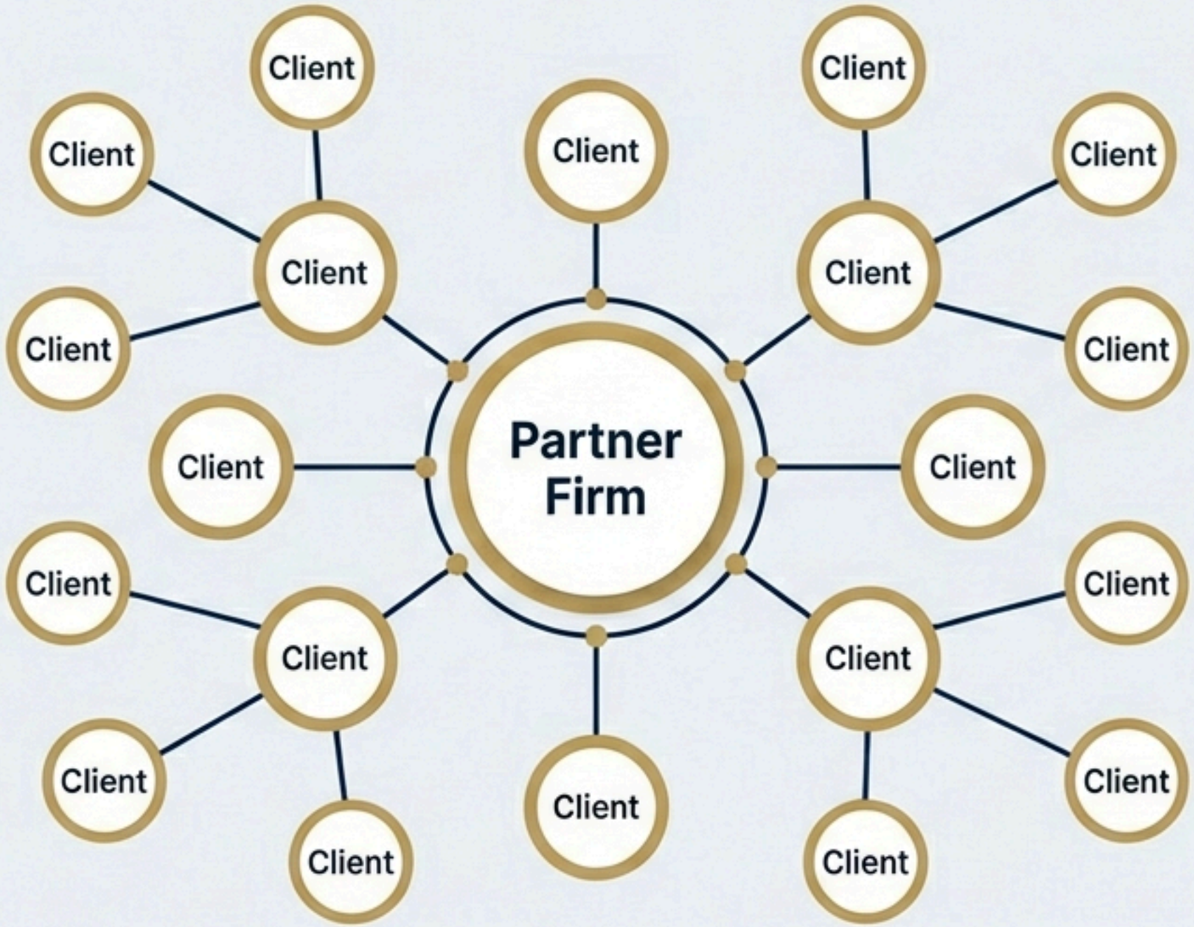
Clear Terms & Conditions and Privacy Policy frameworks.

Reliability

Continuous updates and improvements managed by the provider.

The Partner Opportunity

Audit firms and consultants can leverage AuditPro as a strategic offering.



- **Value-Added Product**: Sell AuditPro solutions to other firms or clients.
- **Business Expansion**: Join as an AuditPro Partner to widen your service portfolio.
- **End-to-End Support**: Technology Technology is fully managed by Amrithaa, leaving you to focus on the relationship.

Trusted by Audit Experts

Firms are using AuditPro to simplify operations and improve compliance.

> AuditPro helped us digitize client communication, billing, and payments without worrying about servers or maintenance.
>
> **Navin Kumar**, CA Firm, India

> Our own branded app improved client engagement and professional image.
>
